-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

- 1) ☒ Responsive to communication(s) filed on 24 June 2008.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. Claims 1-5 and 7-10 are rejected under 35 U.S.C. 102(b) as being anticipated by Tomic (US 6,293,701). Tomic discloses a closing slider having a couple of side legs (Fig 17, 419 and 418), a center leg (416) having a length not reaching the zipper (See Fig 1), a couple of slits (between 419 and 416 and between 418 and 416) made in the top of the slider and extending to a side of the slider, the slits being adapted to receive the flaps of the plastic bag (in order to run along the bag and open and close the bag). Tomic further discloses each side leg comprising two bulges (Fig 18, 404 and 378) bulging inward to limit upward and downward movement of the slider, the bulges having ends that have been partly cut off (insofar as the limitation denotes any structure), the slit being located in a top surface of the slider between the center leg and side leg. With respect to claim 2, Tomic discloses a closing slider having a couple of side legs (Fig 3, 172 and 174), a center leg (194) having a length not reaching the zipper (See Fig 1), a side portion of the center leg protruding from the side legs and exposed, the side portions of the side legs being partly cut off, wherein the exposed portion of the center leg is capable of guiding the flaps of the plastic bag onto the slider, meeting the functional limitations of applicant's claims.

***Response to Arguments***

2. Applicant's arguments filed June 24, 2008 have been fully considered but they are not persuasive. Applicant argues that the slider of Tomic is not used the same manner as applicant's invention. While this is true, the slider of Tomic has all the claimed structure of applicant's invention and is capable of being used in a functionally identical manner to applicant's claimed invention. The slits and center protrusion of Tomic are capable of being used to guide the flaps of the bag into the correct position on the slider, as such, reading on applicant's newly added functional limitations. Furthermore, as noted above, Tomic discloses bulges to limit upwards and downwards motion of the slider, meeting the limitations of applicant's newly added claims. As such, applicant's arguments are not persuasive.

***Conclusion***

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

5. Applicant is duly reminded that a complete response must satisfy the requirements of 37 C.F. R. 1.111, including: "The reply must present arguments pointing out the specific distinctions believed to render the claims, including any newly presented claims, patentable over any applied references. A general allegation that the claims "define a patentable invention" without specifically pointing out how the language of the claims patentably distinguishes them from the references does not comply with the requirements of this section. Moreover, "The prompt development of a clear Issue requires that the replies of the applicant meet the objections to and rejections of the claims." Applicant should also specifically point out the support for any amendments made to the disclosure. See MPEP 2163.06 II(A), MPEP 2163.06 and MPEP 714.02. The "disclosure" includes the claims, the specification and the drawings.
